DETAILED ACTION

Allowable Subject Matter

The indicated allowability of claims 5, 7, and 8 is withdrawn in view of the newly discovered reference(s) to Bordelon US2005/0087145A1. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 5, 7, and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Bordelon 2005/0087145A1.

Regarding claim 5, Bordelon discloses a nail trimming belt and exercise wheel assembly consisting of a nail trimming belt 32 and an exercise wheel 12, the exercise wheel 12 defining an interior cylindrical surface, the nail trimming belt 32 having a first outer layer of high friction slip resistant material 26 disposed on said interior cylindrical surface of the exercise wheel, the nail trimming belt further having a second layer 32 of

sandpaper secured to the first layer of high friction slip resistant material such that an abrasive surface is exposed on an interior cylindrical surface of the assembly (paragraph 13).

Regarding claim 7, Bordelon discloses a nail trimming belt 32 and exercise wheel assembly according to claim 5, the nail trimming belt having a third inner layer (also numbered 26) disposed over the second layer and having a plurality of spaced transversely extending rungs 36 which expose selected areas 40 of abrasive material 26 therebetween (see paragraph 14).

Regarding claim 8, Bordelon discloses the nail trimming belt 26 has a free coupling end 31 adapted to be releasably secured to the belt to form a loop of a selected diameter commensurate with an internal diameter of the exercise wheel (col 15, lines 1-3).
